Treatment: Egyptian Gold Facial

Claim: Dating back to the time of ancient Egypt, pure gold was used as a tool to maintain youthful, supple skin.

Perfect for: Rejuvenating your skin. The gold facial has a powerful effect on lymphatic drainage which facilitates the removal of toxins and wastes. This accelerates the regeneration of new cells, giving you new, healthy skin.

Expected results: The treatment encourages lymphatic drainage and removal of wastes and toxins so you can expect to see improved blood circulation, skin elasticity and a delay in formation of lines and wrinkles.

Wow factor: This unique skin rejuvenating experience utilises a proprietary new technology of Gamma PGA, Ions, and Ultrasonic Nano Mist combined with pure 24-carat gold to deliver glowing and radiant skin.

Verdict: Nothing is off limits for your big day, so why not indulge in some serious pampering and treat your skin to a little pre-wedding bliss courtesy of the Raffles Amrita Spa.

Tried & tested

Look fabulous for your special day and achieve perfect glowing skin with the latest beauty treatments

Treatment: Great Lengths hair extensions

Claim: A complete change of hairstyle, from short hair to long.

Perfect for: Those with short or thinning hair who want to be able to wear an elaborate up-do or cascading locks on the big day

Expected results: Long, natural-looking hair that lasts up six months

Wow factor: Immediate results. In 90 minutes you can have a completely new mane of hair from 12 to 30 inches long

Verdict: As human hair is used, it can be cut, coloured, blow-dried and permed. As well as transforming short hair to long, volume can be added to flyaway hair and new texture can be added such as wavy or curly hair. They are 100 per cent safe and cause no damage to the hair or scalp. Also, hair does not react to humidity, so it will remain looking fabulous even during summer heat. Consultation recommended way in advance to make sure hair is compatible and to discuss style desired.

Cost: Free consultation during which price can then be calculated based on your style requirements, length and volume.
