Great Lengths extensions are world-renowned and made of the highest quality virgin hair. That means the hair strands have never been chemically treated or coloured.

Hair extensions made from real hair can be styled just as you would your own hair – they can be curled, straightened and teased. You can even colour or highlight them.

If you're after poker straight locks, OK! recommends Great Lengths exclusive cashmere hair; super-straight strands that stay slick even after washing.

You don't need to alter your lifestyle when you have good quality extensions. They'll fit into your daily routine with no fuss.

There is no damage to the natural hair or scalp of the wearer. They look just as good wet as they do dry and you can work out, spa, swim, dive, and generally do everything you would do with your own hair.

To increase the longevity of your extensions, never apply oil products to your roots as they can cause the extensions to slip.

You'll need to use a special brush and gently comb the extensions daily to remove knots. However there are no styling limitations: you can blow-dry, use straightening irons and heated rollers.

Lastly, never try to remove your own extensions.

## A-LISTERS WHO LOVE HAIR EXTENSIONS

Gold Salon is the exclusive distributor of Great Lengths hair extensions and is responsible for educating the 400 hair extensionist experts across the Middle East, India, Pakistan and Iran.

- All extensions are done in the comfort of private extension suites. The technicians are highly trained and complete a full head of hair, cut and blow-dry in just 90 minutes. There is even a driver available to pick up jet-setting clients from the airport.
- All three of the Great Lengths application techniques are offered at Gold Salon – clients can choose from keratin bonded extensions applied via heat frequency, cold ultra sonic waves, or the automated air pressure multistrand technique, which will give you a full head of hair in just 25 minutes!
- Great Lengths strands are available in nine different lengths ranging from 12 inches to 30 inches (30 cm to 75cm) and over 50 base colours. All strands are of the highest quality, the bonds are the smallest in the world and they can be worn safely in the hair for up to six months.
- At Gold Salon, an average-sized full head of mid back-length hair starts from Dhs3,500.

For appointments visit 502 Al Attar Tower, Sheikh Zayed Road, Dubai.

# TREAT OF THE HAIR CUT WITH STEVE TURNER

### Who is he?

Steve Turner is a British hair stylist who has worked on several television shows including *Celebrity Scissor Hands*. Once a month he visits the UAE to snip tresses in the Ritz-Carlton hotel, and also to educate salon owners.

### What are the highlights?

Knowing that you have an expert cutting your locks is reassuring and a treat in this region. Steve, who isn't a fan of snipping for the sake of it, is eager to find a style that suits you and your lifestyle.

### How long do the effects last?

You should get your tresses trimmed every six weeks to get rid of split ends.

### Who should do it?

If you still haven't found a decent hairdresser yet then book a consultation here! Those who are after a cutting-edge haircut should definitely pay Steve a visit as well.

### How much is it?

Dhs500 for a consultation and haircut with Steve Turner.

### Where can I get it done?

Steve Turner will be available for a few days each month at Pastels Salon at the Ritz-Carlton, Dubai. For more info call 04 399 5016.
